The Great Shalimar Grasscloth Wallpaper

Initially constructed to house The Great Exhibition of 1851, the Crystal Palace or ?The Great Shalimar? was a giant temporary greenhouse built in Hyde Park, London that featured the world?s most exciting and impressive inventions of the time. Measuring over 1851ft (564m) long and 128ft (39m) tall, it was an architectural marvel filled to the brim with plants, highlighting the exceptional beauty of the natural world. Inspired by the name and imagery surrounding this extraordinary structure, The Great Shalimar Grasscloth Wallpaper features towering tropical palms and golden bunches of the once-exotic banana ripening amongst them. The subtle texture and hand-painted elements combine to create a stunning backdrop that will imbue your space with warmth and transform any interior into a natural haven.

Designed as panels that are 33.6? (85.5cm) wide x 10.1ft (310cm) high.

Delivered as independent panels (Panel 1 & 2). Install Panel 1, followed by Panel 2.

PANEL SET DIMENSIONS	10.1ft (310cm) x 67.2" (171cm)
PANEL DIMENSIONS	10.1ft (310cm) x 33.6" (85.5cm)
PATTERN REPEAT	Repeats Horizontally Every 2 Panels
PATTERN MATCH	Straight Match
FINISH	Matte
CLEANABILITY	Spongeable
USAGE	Domestic & Commercial
ADHESIVE	Paste The Paper
REMOVAL	Wet Removal

SUSTAINABILITY

- Natural and Renewable Materials: Our grasscloth wallcoverings are made from natural seagrass fibres. These fibres are renewable resources, as they come from plants that can be replanted and harvested sustainably.
  Grasscloth wallcoverings are biodegradable, meaning they can naturally break down over time without causing harm to the environment. They can also be composted, reducing waste and landfill burden.
- Low VOC and Non-Toxic: Many grasscloth wallcoverings are manufactured using water-based adhesives and inks with low volatile organic compound (VOC) content. This reduces indoor air pollution and improves indoor air quality, making it healthier for occupants.
- No PVC or Vinyl: Grasscloth wallcoverings are generally free from PVC (polyvinyl chloride) and vinyl, which are materials commonly found in traditional wallcoverings. Avoiding PVC and vinyl reduces the use of harmful chemicals and synthetic materials.

BATCHING & DELIVERY

- Note: Samples of this wallcovering are provided for review of the material, pattern scale and print technique – they are not intended to be used for colour matching purposes. There can be slight shifts in colour between runs, so your wallcovering may vary slightly from sample colouring.
- Please ensure that you order the correct amount as we do not guarantee that rolls printed in different batches will be an exact match.

Grasscloth wallcoverings can be used in residential, commercial and hospitality interior design projects to add features with natural and specialty materials. Combined with superior customer support and quick delivery times.

Natural resource wallcovering important considerations

- Anti-microbial features – Grasscloth wallcoverings contain bactericides and mildew inhibitors to discourage the growth of mold and mildew under normal conditions.
- Paste-The-Paper – Made from natural fibres, these wallcoverings will expand when adhesive is applied. Simply apply the paste directly to the back of the paper—be generous, but avoid using excessive paste. Allow for booking time, as the wallcovering will expand slightly during this period before hanging.
- Book the wallcovering – "Booking" is a process where you fold the pasted sides of the wallcovering together, adhesive-to-adhesive, with the pasted side facing inwards. This allows the paste to activate and helps prevent it from drying out before you hang the wallcovering. Leave the booked wallcovering a few minutes.
- The wallcovering rolls are finished precisely to have no overlap. Meaning the panels simply butt up to each other for ease of installation.
- Spongeable – Dirt, dust, and other marks can be cleaned with a slightly damp sponge (do not use any solvents).
- Wet removal – is a common method for removing grasscloth & natural wallcovering. However, because grasscloth is made from natural materials, it can be delicate and requires a bit of extra care during the removal process to avoid damaging the walls.
